

Network Liquidity Acceptance
Company, LLC™

Jumbo mortgage loans

Network Liquidity Acceptance Company LLC, (NLAC), a corporate CUSO created by the Corporate Network, offers a unique opportunity through our jumbo loan mortgage program. Now, credit unions can sell their jumbo loans to NLAC and maintain relationships with their members. In addition, credit unions will be able to better serve their members by expanding their mortgage programs.

With its new jumbo program, NLAC combines the advantages of servicing-released options, such as better pricing, and servicing-retained options, such as keeping the member relationship. NLAC provides an access point to the secondary market that offers servicing flexibility with competitive pricing to participating credit unions.

Through the jumbo program, NLAC will purchase mortgage loans servicing-released. However, if the credit union chooses, the servicing will still be conducted utilizing the credit union's name. NLAC understands the importance that credit unions place on providing service to their members. NLAC's jumbo program offers four unique features to the credit union marketplace:

- **A jumbo focus.** NLAC's program will specialize in jumbo mortgages.
- **Servicing flexibility.** NLAC recognizes the value of maintaining member relationships; therefore, NLAC provides the flexibility for credit unions to service under their brand.
- **Liquidity source.** NLAC offers a competitively priced liquidity source for credit unions with balance sheets containing long-term jumbo mortgages.
- **Credit union solution.** The jumbo loan program is designed specifically for credit unions, to help them become members' primary financial institution.
